

LASER HAIR REDUCTION

If you're not happy with shaving, tweezing, or waxing to remove unwanted hair, laser hair reduction is worth considering. Using highly concentrated light, it reduces the growth of hair by destroying the follicles. Package treatments are strongly recommended; results are best seen between 6-8 treatments.

Tired of Shaving?

FOREVER YOUNG BBL:

These treatments can slow down the aging process and keep your skin looking “forever young.” BroadBand Light targets many skin conditions such as rosacea, hyperpigmentation, vascular lesions, acne, and other signs of sun damage. With consistent treatments, BBL rejuvenates the skin and delays aging. The BBL technology is effective on all body parts—face, neck, chest, arms, and hands. These treatments give a more youthful appearance by bringing clarity, brightness, and smoothing to the skin. BBL treatments have minimal downtime and long lasting results.

PROFRACTIONAL RESURFACING

Skin resurfacing to stimulate collagen in the dermal layer of the skin. By tightening the skin, it improves the appearance of scars, stretch marks, fine lines, and wrinkles. Profractional may be combined with MicroLaser Peel or BroadBand Light. Downtime consists of redness and swelling.
— *Come in for consultation*

MICROLASER PEEL

Improves fine lines, hyperpigmentation, tone, and texture of the skin. By rejuvenating the surface of the skin, the MicroLaser Peel provides a smooth and polished finish. Downtime varies depending on depth of treatment, but usually consists of redness, mild swelling, and peeling.

Superficial	\$350
Medium	550
Deep	750

COOLSCULPTING®

The CoolSculpting fat-freezing procedure is the only FDA-cleared, non-surgical fat-reduction treatment that uses controlled cooling to eliminate stubborn fat that resists all efforts through diet and exercise. With our new applicator, treatments take as little as 35 minutes. The results are proven, noticeable, and lasting—you will look great from every angle. — *Come in for consultation*

SUPERFICIAL SKIN PEELS

Glycolic acid and Salicylic acid peels provide anti-aging benefits giving the skin a glowing appearance. These treatments may be repeated every 2 weeks. They are also beneficial for acne-prone or oily skin, removing dead skin cells and reducing the appearance of enlarged pores, cleaning the pores, and reducing pigmentary changes from acne

VIPEELS

A medium-depth peel to improve tone, texture, pigment, and clarity of the skin while softening the appearance of fine lines and wrinkles. Also reduces appearance of pore size and stimulates collagen production for firmer skin.

– \$300; VIPeel Plus for malasma – \$350

DERMAPLANING

Exfoliates the skin by removing the dead cells from the surface of the skin. This exfoliation allows for better product penetration, increasing the overall radiance of the skin. – \$150

Specialized Treatment:

Full Face BBL & Dermaplane Package – \$425

MICRONEEDLING

Is a minimally invasive treatment to rejuvenate the skin. The Rejuvopen creates thousands of micro-perforations in the skin, creating natural collagen stimulation. The self-repairing property of the skin is a 100% natural form of skin renewal from the inside out. Your skin becomes firmer and regains elasticity, fine lines and wrinkles are visibly reduced, pores become finer, circulation is stimulated and the overall condition of the skin improves. Downtime consists of 24 hours of redness, make-up can be applied on day 2.
\$300; Package of 3 - \$850

OTHER AESTHETIC PROCEDURES:

Silk Peel (Microdermabrasion) — \$150 per session

Extractions — \$60

Extractions w/ chemical peel — \$125

PHYSICIAN PERFORMED PROCEDURES:

Botox Injections

Spider vein sclerotherapy injections

Juvederm, Radiesse, Voluma, Volbella & Belotero filler injections

Kybella injections for unwanted neck fat
